Epilepsy 20 Years.

Cured by Dr. Miles' Nervine. A few years ago, Mr. L. W. Gallaher, was an extensive, successful expert manufacturer of tumber products. Attacked with splepty, he was obliged to give up his busines. The attacks came upon him most inoportunely. One time falling from a carriage, at another down stairs, and often in the sect. Once he fell down a shaft in the are, at another to the street. Once he fell down a shaft in the street. Once he fell down a shaft in the street, and the street of the street

of new rulings in pension cases are made by Assistant Secretary of the Interior Reynolds in recent opinions. Interior Keynolds in recent opinions.

In disposing of a case of alleged disloyalty of a Tennesseean, the assistant
secretary holds that involuntary service by a consoript does not prevent
him being a claimant for pension within the provision of section 4715 of the
revised statutes.

An honorable discharge from all service contracted to be performed during

revised statutes.

An honorable discharge from all service contracted to be performed during the war of the rebellion is held to be pre-requisite to pension under the second section of the act of June 27, 1890, and the appellants desertion from the United States service in 1883, and failure to receive an honorable discharge bars his right to pension under that act. This, though rejecting the claim because of desertion, reverses the action of the pension bureau, which dropped the claimant from the rolls "on the ground of disloyalty, he having previously served in the Confederate army."

The naval home in Philadelphia is declared by the department to be a navy hospital within the meaning of section 4812 of the revised statutes, and pensions due to its inmates accordingly must be paid to the secretary of the nay. It is held that there is just cause for complaint by the sailors there of discrimination by act of Congress in favor of the soldier immates, but the appeal for relief is directed to Congress Instead of the department.

OH! THAT HARMONY!

A Specimen of the Enthusiasm Prevailing in the State Democracy.

The following letter, signed by one of the best known Democrats in the state, a leader in Roane county, appears in the SPENCER, Feb. 28,

SPENCER, Feb. 23.

Editor Gazette:

Dear Sir:—I notice that our state executive committee and others, about eighty in number (bosses) have ignored the wishes and claims of us common people by calling a state convention at Wheeling. August 12. As the convention is to be held up in the "handle," of course the people are not expected to take part, and will not. These immortal eighty bosses can hold their convention; why not the people of the state, about August 12, stay at home and hold a primary election and select all our Democratic nominees, from governor to constable? The wishes of the Democratic farmer, who does the electing, should be heeded instead of those of a few politicians and office seekers? The county candidates in each county would pay all the expenses incurred in conducting primary election.

A state convention will cost the Democratic party ten times as much as a primary election would, when you take into consideration railroad fare (upon the "Handle") cost of whisky, and extra cigars, hotel bills, etc. Why not save this vast sum instead of giving it to the saloons, hotels and railroads? If we expect to win we should unite our party with a primary election. Politicians, bosses and leaders are saying that cheering news of party success is coming up all over the state. They don't know any more about the condition of things than a hog does about Sunday. I think that I understand how our people are up the hellows and on the hills of "Old Roane." If have an opportunity to find out some things.

GEORGE W. HUNDLEY,

The Marquette Statue.

WASHINGTON, March 3.—Although much pressure is being brought to bear on members of Congress to inbear on members of Congress to Induce them to have the Wisconsin statue of Pere Marquette taken from statuary hall it is unlikely that any action of the sort will be taken. A policeman and a detective are specially detailed to watch the work, but they have not been called upon to make any arrests. The statue is constantly surrounded by a group of people and as a work of art is generally considered second to none in the capitol.

Big Apartment House Burns

Big Apartment House Barns.

UTICA, N. Y., March 2.—The Genesee flats, the largest apartment building in Utica, seven stories high, were burned to-day. Three hundred and fity people lived in the building, which was a mere shell of brick, but well fitted with fire escapes. One woman, Mrs. Hughes, while descending the fire escape between third and fourth stories, fell to the ground and died soon after. A daughter of John Wood is missing. The building was valued at \$200,000, insurance \$155,000. The residents of the building were mostly professional and business men, and families of Utica.

The share speculation to-day was comparatively dull, business being about one-third less active than yeaterday. The source of prices was irregular and was dictated entirely by the professional dealers. A feature of the day's operations were the variety on gossip almost entirely concerning the industrial shares. London was not a considerable factor, its operations being limited and the orders about evenly divided between the two acounts. The initial prices were irregular, owing to lower London quantions for Americans, but he tmarket soon proved superior to this influence and took an upward trend. The grangers and international shares also made substantial fractional advances. The advance halted to selling for London acount and by the traders. Tobacco, which absorbed one-third of the total dealings, developed pronounced heaviness in the later trading on reports of the formation of a powerful hati-trust combination, and of cutting in prices by outside plug tobacco manufacturers. Rumors were also current of an impending issue of preferred stock, amounting to 31,000,000. The loss reached 12 per cent, but at the low point, support was extended by insiders and free covering by the shorts resulted on appreciation of the formation, and of cutting in prices by outside plug tobacco manufacturers. Rumors were also current of an impending issue of preferred stock, amounting to 31,000,000. The loss reached 12 per cent, but at the low point, support was extended by insiders and free covering by the shorts resulted on appreciation of tha fact. Blocks of spock of from 500 to 5,500 shares changed hands at frequent intervals. In the rally the price was carried up to last night's closing, but realizations at the finish caused a concession of ½ per cent. Baltimore & Ohlo was less active than recently and move and prices of most stocks rose to figures alightly above yesterday's finals. The market

The market closed dull and firm at fractional net improvements generally. Dealings in railway bonds fell off to \$750,600, a total considerably below recent averages. The temper of the market was firm and noteworthy movements occurred in a few issues.

Government issues were weak and lower on tales of \$125,500.

Sliver certificates ruled slightly higher on sales of \$125,500 at \$8%,968%c.

LONDON—The second series of the Colonial wool sales opened at the wool exchange to-day. The selection was above the average quality offered at an initial sale. There was a very large attendance and the bidding was spirited especially by France, who bought largely of Merines and sparingly of cross breds. There was a good attendance of American buyers present but their takings were very small. The number of bales offered were 3,670, of which 700 were withdrawn. Following are the sales in detail:

New South Wales—2,880 bales; scoured 10½6 Queensland—2,962 bales; scoured 10½6 Queensland—2,962 bales; scoured 10½6 South Australia—905 bales; scoured 1s 3½6; greasy 5½99d.
